SYNOPSIS

DSC-SEM 5 Minor Project -1

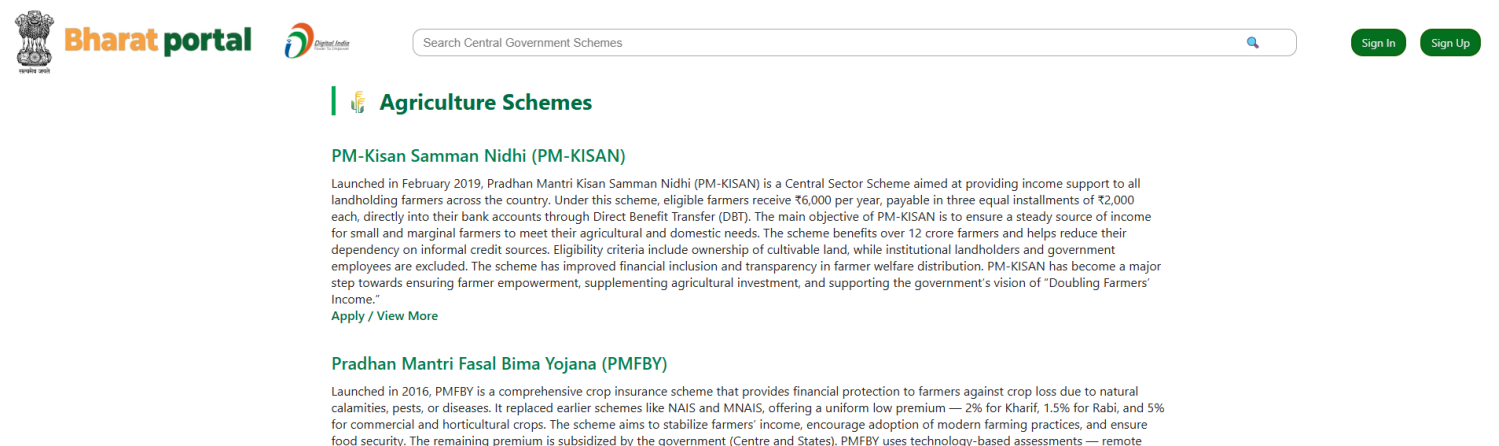

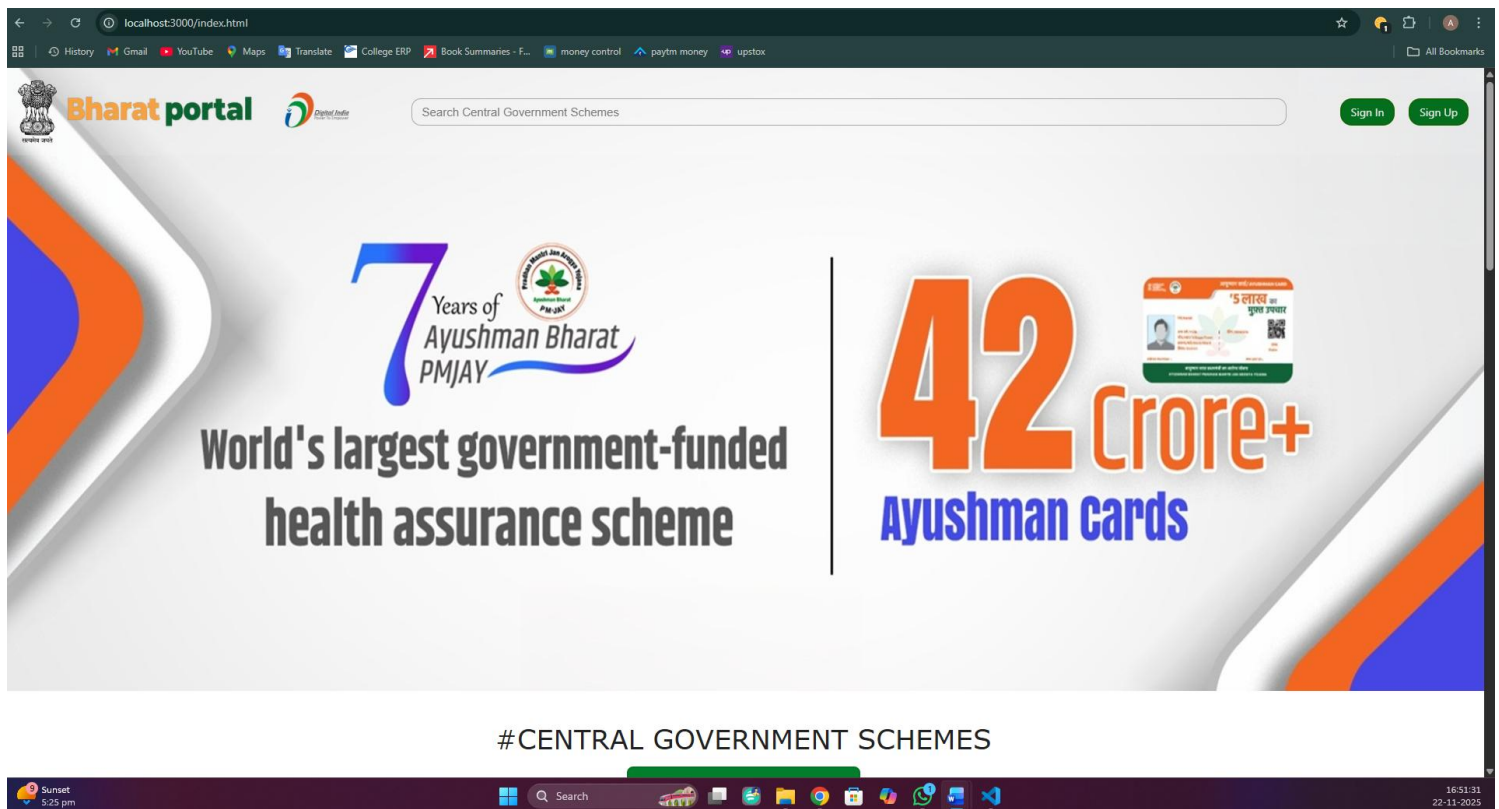

Project Name: Bharat Portal

Student Name	:	ASHUTOSH KUMAR (20232749)
	:	CHIRAG SHARMA (20232762)
Course	:	B. Voc. Software Development
Semester	:	V
Subject	:	DSC- Minor Project -1
Submitted to	:	Dr. Sumit Kumar/ Dr. Subodh Kumar

Introduction

Government schemes in India are designed to benefit different sections of society, including students, farmers, senior citizens, women, entrepreneurs, and economically weaker groups. However, most citizens are unaware of the schemes available for them due to scattered information across multiple websites and portals.

Bharat Portal is a web-based platform that centralizes government scheme information, enabling users to register, log in, and find schemes based on their eligibility, category, beneficiary type, employment status, and demographics. The portal enhances accessibility and makes government scheme discovery more convenient and user-friendly.

Students Schemes

National Scholarship Portal (NSP)

NSP is India's unified online portal for students to apply, track, and receive government scholarships at pre-matric, post-matric and higher education levels. Launched under the National e-Governance Plan, it simplifies registration, verification and disbursement of funds. With a one-time registration (OTR), students can apply to multiple schemes via a single dashboard, reducing paperwork and delays. It supports transparency, monitoring, and timely payments directly into bank accounts. By digitising the scholarship flow, NSP aims to boost student enrolments, reduce dropouts, and ensure that financial assistance reaches the intended beneficiaries efficiently.

Inspire Scholarship

The INSPIRE (Innovation in Science Pursuit for Inspired Research) Scholarship programme, implemented by the Department of Science & Technology, encourages outstanding young students to pursue studies and careers in natural sciences. It offers scholarships for higher education (such as in BSc/MSc) and mentorship to cultivate innovation and research skills. The scheme selects meritorious students (top 1% in board exams) and awards financial support annually, encouraging scientific talent and strengthening India's research base. By linking early schooling with advanced science education, INSPIRE fosters a culture of research-driven learning among youth.

PM YASASVI Scheme

PM YASASVI ("Young Achievers Scholarship Award Scheme for Vibrant India") targets OBC, EBC and DNT students to access top class education in school and college. The scheme offers scholarships and support to meritorious students from under-represented communities, enabling them to study at schools/colleges of excellence. It intends to enhance equity in education, reduce marginalisation and enable higher educational achievement among these groups. By providing financial help, mentoring and academic pathways, YASASVI opens doors to quality learning for youth who may otherwise face systemic barriers to advanced educational opportunities.

AICTE Pragati & Saksham

The AICTE Pragati & Saksham Scholarship Schemes support female students and specially-abled students enrolling in Diploma/Degree technical programmes in AICTE-approved institutions. Pragati focuses on girl students (income ceiling ₹8 lakh, up to two daughters/family), while Saksham targets differently-abled students. The scholarship covers tuition/education expenses (up to ₹50,000/year) for technical courses, easing financial burden and promoting diversity in STEM education. Together, they encourage inclusive participation in engineering, technology and allied fields.

Home > Frequently Asked Questions

What is Bharat Portal?

Bharat Portal is an online platform that provides citizens with detailed information about various Central and State Government schemes and services in one place.

How will Bharat Portal help common citizens?

It helps citizens discover government welfare schemes based on their needs, eligibility, and background.

Can I apply for the schemes through Bharat Portal?

Yes, Bharat Portal allows users to find official scheme links and, in many cases, apply directly through connected government portals.

How does Bharat Portal work? How do I check my eligibility?

You can use the "Find Schemes for You" feature by entering your basic details to view all schemes you are eligible for.

What information can I find on Bharat Portal?

You can find information such as scheme eligibility, benefits, required documents, and the official website to apply.

What sectors does Bharat Portal cover?

Bharat Portal covers multiple sectors such as education, agriculture, employment, health, and women welfare.

Objectives

The major objectives of this project are:

1. To provide a single-window platform for accessing Central and State Government Schemes.
2. To allow user registration/login with personalized profile details.
3. To enable searching of schemes based on Beneficiary type, Category, and Eligibility.
4. To maintain user-specific data securely using hashed password storage.
5. To provide a user dashboard showing profile information and logout functionality.

Problem	How Bharat Portal Solves It
Scheme information scattered across different websites	Consolidates all Central and State Government schemes into one portal
No personalized system	Portal creates a user profile and shows personalized dashboard and scheme recommendations
Lack of centralized system	Acts as a single unified platform for all major government schemes
Complicated websites	Simple, clean, mobile-friendly UI with easy navigation
No user account system	Secure signup/login options with data stored using bcrypt password hashing
Lack of awareness among citizens	Provides scheme descriptions, benefits, eligibility criteria, documents, and official links

Proposed System

- **Sign Up and Login System**

Users can register with personal details such as Name, DOB, State, Category (SC/ST/OBC/General), Beneficiary Type (Student/ Farmer/ Senior Citizen/ Entrepreneur), Employment Status, etc.

The image displays two versions of the 'Sign up for Bharat Portal' form. The left version is the initial empty form, and the right version shows it after successful registration with example data.

Left Screenshot (Empty Form):

- Header: Bharat portal
- Title: Sign up for Bharat Portal
- Fields: Full Name*, dd-mm-yyyy (with calendar icon), State*, Select Category (Student/Farmer etc.)*, Employment Status*, Caste Category*, Email*, Password*.
- Consent: ☐ I consent to terms of use.
- Button: Create Account
- Footer: Already have an account? [Sign in to an existing account](#)

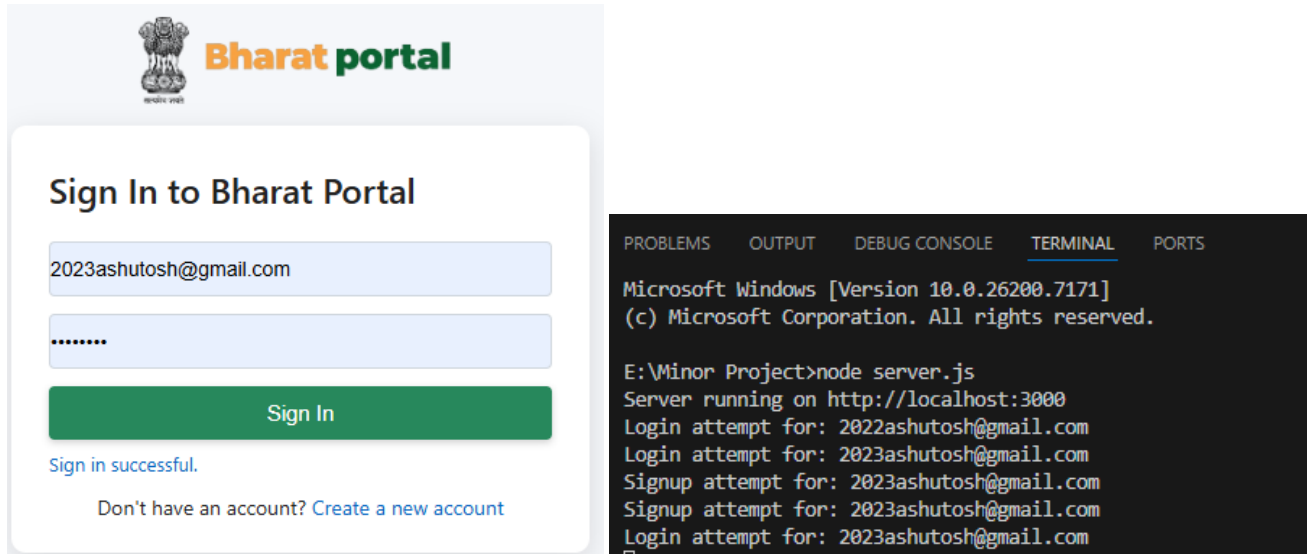

Right Screenshot (Filled Form):

- Header: Bharat portal
- Title: Sign up for Bharat Portal
- Fields: ASHUTOSH KUMAR, 15-12-2002 (with calendar icon), Bihar, Student, Unemployed, General, 2023ashutosh@gmail.com, (password).
- Consent: ☒ I consent to terms of use.
- Button: Create Account
- Message: Signup successful. You can now sign in.
- Footer: Already have an account? [Sign in to an existing account](#)

Upon successful signup, these user details are securely stored in a users.json file on the server with the password encrypted using bcrypt.

```
{
  "users.json": [
    {
      "id": 1763808332914,
      "name": "ASHUTOSH KUMAR",
      "dob": "2002-12-15",
      "state": "Bihar",
      "category": "student",
      "employmentStatus": "unemployed",
      "casteCategory": "general",
      "email": "2023ashutosh@gmail.com",
      "password": "$2b$10$26PTk5avnCFswpuYU1Dq0Ho3hXxAAU1eeSa9bdJkuM3HFgNIT6mq"
    }
  ]
}
```

Once registered, users can easily sign in using their credentials (email and password) to access their personalized dashboard.

The image shows the 'Sign In to Bharat Portal' interface. It features a login form with fields for email (2023ashutosh@gmail.com) and password (masked with dots), a 'Sign In' button, and a link to 'Create a new account'. Below the form, it says 'Sign in successful.' To the right, a terminal window displays the output of a Node.js server, showing login and signup attempts for the same email address.

• Profile Management

Users can view their full profile details in a dedicated profile page.

The image shows the 'Profile Management' page. It displays the user's profile information, including a profile picture (orange square with 'A'), name (ASHUTOSH KUMAR), email (2023ashutosh@gmail.com), date of birth (2002-12-15), state (Bihar), caste category (general), beneficiary type (student), and employment status (unemployed).

Information

Email	2023ashutosh@gmail.com	Date of Birth	2002-12-15
State	Bihar	Caste Category	general
Beneficiary Type	student	Employment Status	unemployed

• Scheme Filters Page

Users will be able to explore schemes by category, state, employment, etc.

The image shows the 'Scheme Filters' page. It displays the total number of schemes available (4340+) and the number of schemes available by state (580+) and by UTs (3750+). Below this, there are filters for categories (Agriculture, Rural & Environment; Education & Learning; Skills & Employment; Health & Wellness; Women & Child) and by beneficiary (Students; Farmers; Senior Citizens; Entrepreneurs).

Find schemes based on categories

 6 Schemes Agriculture, Rural & Environment	 6 Schemes Education & Learning	 6 Schemes Skills & Employment	 6 Schemes Health & Wellness	 6 Schemes Women & Child
---	---	--	--	--

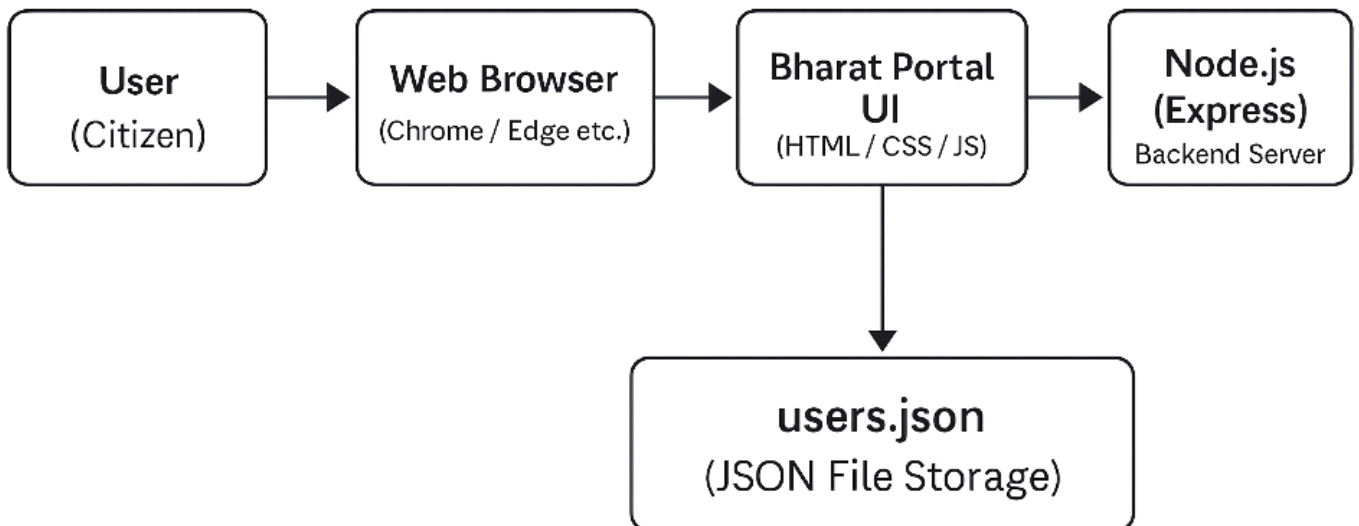

Schemes by Beneficiary

 5 Schemes Students	 5 Schemes Farmers	 5 Schemes Senior Citizens	 5 Schemes Entrepreneurs
---	--	---	--

Technology Stack Used

Component	Technology
Frontend	HTML5, CSS3, JavaScript
Backend	Node.js with Express.js
Database Storage	JSON File (Flat-file storage)
Password Security	bcrypt / bcryptjs hashing
Server Hosting	Localhost / Express Web Server
Tools	Visual Studio Code, Postman, Git

System Architecture

Security Features:

1. Passwords are hashed using bcrypt.js.
2. No raw passwords stored or shown in console.
3. Local Storage used for frontend login status.
4. No sensitive logs stored in backend.

Future Scope:

Bharat Portal can be enhanced with:

1. Scheme recommendation system using AI.
2. Android/iOS Mobile Application.
3. Migration to MongoDB/MySQL database.
4. Eligibility Checker with AI-driven matching.
5. Deployment on cloud platforms (AWS, Render, Vercel).

Conclusion:

The **Bharat Portal** successfully provides a centralized website for accessing Indian government schemes, with added features like authentication, user profile management, and structured categorization of schemes. This project is useful for citizens and can be extended into a full-scale public service platform in the future.
